

Extreme Pressure Grease
AVALON

EP-2/3

API-CK-4

Product Description

Goodyear Avalon EP Greases are heavy duty extreme pressure lithium soap greases made with high quality base oils and are blended with high quality, lithium soap thickener and extreme-pressure additives to provide excellent performance for severe heavy shock loads, high temperature, extreme pressure and demanding environment particularly having water, dust and extreme operating temperatures.

Benefits

Goodyear Avalon EP Grease provides the following benefits:

- Heavy shock load carrying capacity,
- Good lubricity under conditions of extreme pressure and at elevated temperatures,
- Good mechanical and thermal stability, Anti-corrosion, and Anti-wear properties.
- Can be used in both automotive and industrial based applications.

Application

Automotive Applications for Goodyear Avalon Lithium greases include wheel bearings, chassis points, ball joints, universal joints and off-road vehicles, Provides Extended service life even at continuous high temperature applications such as bearings in automotive disk and drum brakes.

Properties

Industrial applications include conveyors, bail mills, crushers, enclosed gears, and bearings.

Typical Characteristics

Splendour	EP2	EP3	PERFORMANCE LEVEL- MEETS
INLGI NO	2	2	DIN-51502/51928 - 2005-01
Texture	Smooth	Smooth	ISO 6743-9
Thickener	LI	LI	NLGI-GC-LB
Dropping Point (MIN) °C	194	196	
Workened Penetration @25 °C	275	235	
Ol Separation Mass %	3.0	3.0	
Operating Temperature °C	-20	-20	
Weld load Kgs	250	250	

Typical physical characteristics of Avalon EP Grease are given in the table. These are intended as a guide to the industry and are not necessarily manufacturing or marketing specifications.

Health & Safety

Detailed health and safety information for this product is provided in a Material Safety Data Sheet which is available upon request from your Goodyear lubricants sales office, or via the Internet on www.goodyearlubricants.me
