

Automatic Transmission Fluid (ATF)

Adaptive

DEX II D

Product Description

Goodyear Adaptive DEX II D was developed for the use in automatic transmissions, hydro steering mechanisms, converters and power transmissions and can be used as a universal ATF (Automatic-Transmission-Fluid) for all vehicles and working machines.

Benefits

Goodyear Adaptive DEX II D provides the following benefits :

- Friction modifier provides smooth shifting & trouble-free
- Enhanced friction durability prolongs the life of transmission life
- Protection against rusting
- Excellent thermal stability enables cleaner transmissions

Application

Goodyear Adaptive Dex II D is recommended for use in automatic transmissions and torque converters of General Motors and other manufacturers specifying this type of fluid. It is suitable for both commercial vehicles and passenger car applications, as well as the majority of power steering systems.

Properties

Formulated from high viscosity index base oils, Goodyear Adaptive Dex II D contains the additives to exceed the requirements of the G M -Dexron II specification

Typical Characteristics

| Adaptive | DEX II D | PERFORMANCE LEVEL- MEETS |
|-------------------------|----------|--------------------------|
| Specific Gravity @ 15°C | 0.8700 | GM DEXRON II |
| Flash Point, °C | 180 | ALLISON C3/C4 |
| Pour Point, °C | <-40 | |
| Viscosity at 40°C, cSt | 34.3 | |
| Viscosity at 100°C,cSt | 7.30 | |
| Viscosity Index | 164 | |

Typical physical characteristics of Adaptive DEX II D are given in the table. These are intended as a guide to the industry and are not necessarily manufacturing or marketing specifications.

Health & Safety

Detailed health and safety information for this product is provided in a Material Safety Data Sheet which is available upon request from your Goodyear lubricants sales office, or via the Internet on www.goodyearlubricants.me
